

# EXPERIENCED VOLUNTEER DOCTORS, NURSES AND ALLIED HEALTH PROFESSIONALS URGENTLY NEEDED

## Experience of a lifetime!

Medical Santo urgently needs experienced Doctors, Nurses Paramedics and other Allied Health Professionals to volunteer to ensure the ongoing provision of health services to the people of Northern Vanuatu. We have a number of volunteer vacancies that need to be filled from December 2017 and throughout 2018.

## How you can help

If you are in a position to consider volunteering please contact us now or do you know someone who may be interested in volunteering? We would appreciate you passing this information on to them directly.

## How we can support you

Medical Santo has a team of people supporting volunteers' in-country and in Australia to assist with navigating the application process, and are available for consultation and advice from enquiry through to your return. They will also support you when you return with the opportunity to stay connected as a past volunteer. Medical Santo is based in Luganville and operates a GP clinic where staff are available on the ground to supervise, support and guide volunteers during their stay. The volunteer program also covers:

- ✓ Pre-departure orientation
- ✓ Corporate Travel and Personal Injury and Accident Insurance for volunteers
- ✓ Volunteer accommodation
- ✓ Airport transfers in Vanuatu
- ✓ In-country orientation and cultural awareness training
- ✓ Volunteer uniforms for the duration of their stay.

## What you will need to provide

Volunteers supporting Medical Santo will be contributing skills, knowledge and time to support the Medical Santo medical services program. Unlike government funded international aid programs, Medical Santo is not in a position to fully cover all expenses associated with volunteering. Volunteers will need to pay for the following:

- ✓ \$300 AU registration fee
- ✓ Return airfares
- ✓ General living expenses during the assignment such as food, mobile phone costs and recreational activities
- ✓ Costs associated with immunisation.

## Can I bring my family?

Family is welcome and appropriate accommodation can be provided. The costs of insurance and visas will be covered for the family by Medical Santo, however all travel and associated costs will be your responsibility.

## A wonderful experience!

This is a wonderful and challenging opportunity to provide much needed health services in a developing country, and to make a meaningful contribution to communities in one of the most beautiful parts of the world.
